Loris Degioanni

When Loris enters the cloud, choose one Cluster provider. Clusters of that provider cannot be destroyed as long as Loris is in the cloud.

Jeff Bezos

All the other players reveal AWS clusters. At the start of your turn, you can discard a card and draw a new one.
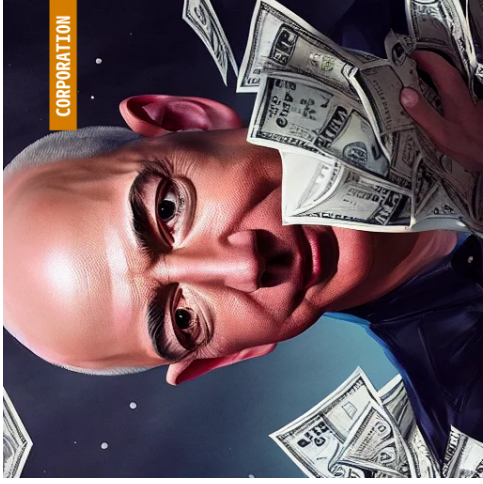

Sundar Pichai

Steal half of the clusters (rounded down) from another player. In your next turn, if you are the player that controls the most clusters, destroy two of your clusters.

Government Mandate for Corporate Software

The government of your country has made a law that restricts the use of open source software. All open source cards are removed.

Bill Gates

All the other players reveal Azure clusters. When you destroy an OpenShift, Google Cloud or AWS cluster, draw a card.

Paul Cormier

When Paul enters the cloud, steal up to 2 clusters. You can't steal a player last cluster. At the start of your turn, if you control 2 or less clusters, you lose.

Linus Torvalds

All corporation cards played by other players are removed.

Government Mandate for Open Source

The government of your country has made a law that promotes the use of open source software. All corporate cards are removed.
